Reference Documents for the General Meeting of Shareholders

Proposals and References

Proposal No. 1: Appropriation of Surplus

Matters concerning year-end dividends

- (1) Type of dividend property
Cash
- (2) Matters concerning the allotment of dividend property and the total amount
For each share of the First Series of Class 7 Preferred Shares, the Company proposes a dividend of 15 yen (thereby making the annual dividend including the interim dividend 30 yen per share), pursuant to the Articles of Incorporation.
For ordinary shares, the Company proposes a dividend of 6.25 yen per share (thereby making the annual dividend including the interim dividend 10 yen per share).
The total amount of dividends in this case will be 2,126,826,407 yen.
- (3) Effective date of distribution of surplus
June 29, 2022

As its policy to return profits to shareholders, the Company targets a shareholder return ratio of 30% or more. In addition, profit attributable to owners of the parent for the fiscal year under review includes interests of 1.3 billion yen, which was additionally remunerated (“special remuneration”) under the “Special Deposit Facility to Enhance the Resilience of the Regional Financial System” set forth by the Bank of Japan. Based on the purpose of this facility, the Company has deemed it inappropriate to include the special remuneration in the appropriation of surplus. Accordingly, the dividends of surplus have been set to be an amount in line with a shareholder return ratio of 30%, as against profits after deducting the special remuneration.

Proposal No. 2: Partial Amendments to the Articles of Incorporation

The amended provisions stipulated in the proviso of Article 1 of the supplementary provisions of the Act Partially Amending the Companies Act (Act No. 70 of 2019) shall become effective as of September 1, 2022. Accordingly, in order to prepare for the system for electronic provision of reference documents for general meetings of shareholders, the Articles of Incorporation of the Company shall be amended as follows.

- (1) The proposed amendment to Article 23, Paragraph 1 stipulates that information contained in the Reference Documents for the General Meeting of Shareholders, etc. shall be provided electronically.
- (2) The proposed amendment to Article 23, Paragraph 2 establishes provisions to limit the scope of matters to be stated in a paper copy to be provided to shareholders who have requested it.
- (3) The stipulations regarding Internet Disclosure and Deemed Provision of Reference Documents for the General Meeting of Shareholders, Etc. (Article 23 of the current Articles of Incorporation) shall no longer be required. Accordingly, these stipulations shall be deleted.
- (4) In accordance with the aforementioned establishment and deletion of the provisions, supplementary provisions related to the effective date, etc. shall be established.

Proposal No. 5: Reduction in the Amount of Legal Capital Surplus (Transfer of Legal Capital Surplus to Other Capital Surplus)

1. Reasons for the proposal

(1) Introduction

The objective of reducing the amount of legal capital surplus pertaining to this proposal is to secure the financial resources to acquire the First Series of Class 7 Preferred Shares of the Company (hereinafter, the “Preferred Shares”), and to ensure the acquisition of the Preferred Shares. As stated in (2) below, the Company believes that the acquisition of Preferred Shares will contribute to the maintenance and enhancement of the corporate value of the Company and to the overall interests of shareholders.

(2) Acquisition of the First Series of Class 7 Preferred Shares

The Company has issued twenty-five million (25,000,000) shares of Preferred Shares, and according to Article 17, Paragraph 2 of the Articles of Incorporation of the Company, the Company may acquire the Preferred Shares within the extent permitted by laws and regulations from shareholders in possession of the Preferred Shares (hereinafter, “Preferred Shareholders”) on a date on or after July 1, 2022 as determined via resolution of the Board of Directors (hereinafter, the “Acquisition Date”). In the event of acquiring the Preferred Shares in accordance with the previous paragraph, in exchange for the acquisition of the Preferred Shares, the Company shall pay the Preferred Shareholders an amount consisting of 1,000 yen per share of Preferred Shares plus the amount (for amounts less than one yen, calculated to three decimal places, and then rounded to the second decimal place) (however, if preferred interim dividends are paid out to Preferred Shareholders, etc. during the fiscal year in which the Acquisition Date falls, then this amount is eliminated) of preferred dividends pertaining to the Preferred Shares prorated by the number of days from the first date (including the same day) of the fiscal year in which the Acquisition Date falls until the day prior (including the same day) to the Acquisition Date (Article 17, second sentence of Paragraph 2 and Paragraph 3 of the Articles of Incorporation).

However, according to Article 17-2, Paragraph 1 of the Articles of Incorporation of the Company, the Company may also acquire the Preferred Shares on March 31, 2025 in exchange for granting Preferred Shareholders the number of shares of common stock obtained by dividing the amount obtained by multiplying the number of Preferred Shares held by the amount equivalent to the payment amount per share of Preferred Shares, by the market value of the common stock (this refers to the market price calculated in accordance with a method stipulated in Article 17-2, Paragraph 2 of the Articles of Incorporation of the Company. However, if said market price is lower than the “minimum acquisition price” stipulated in the proviso of the same paragraph, the “minimum acquisition price” shall be 464 yen unless adjustments are made based on Article 17-2, Paragraph 3 of the Articles of Incorporation of the Company).

In this way, the Company is in a situation where it is possible to select either: 1. a method based on an acquisition clause with cash as consideration; or 2. a method based on an acquisition clause with common stock as consideration for the acquisition of Preferred Shares. However, based on Article 17, Paragraph 2 of the Articles of Incorporation of the Company, the Company plans to acquire the Preferred Shares in exchange for the payment of cash on the Acquisition Date for the following reasons (hereinafter, the “Plan”).

a. Market credibility

From the start of the issuance of Preferred Shares, the Company has explained to Preferred Shareholders that it plans to acquire Preferred Shares with cash as consideration in accordance with Article 17, Paragraph 2 of the Articles of Incorporation of the Company. Therefore, we believe that acquiring the Preferred Shares with cash as consideration is in accordance with our credibility in the market.

b. Reduce dividend costs to Preferred Shareholders

Acquiring the Preferred Shares with common stock as consideration would necessitate paying preferred dividends of 750 million yen per year until March 31, 2025. However, acquiring the Preferred Shares at an early stage with cash as consideration would enable the dividend cost to the Preferred Shareholders to be reduced.

c. Avoid dilution of common stock

Acquiring the Preferred Shares with common stock as consideration would result in an increase in the number of issued shares and the dilution of common stock. However, acquiring the Preferred Shares with cash as consideration would enable such dilution of common stock to be avoided.

d. Maintain the capital adequacy ratio

Even if the Preferred Shares are acquired with cash as consideration, the consolidated capital adequacy ratio of the Company and the non-consolidated and consolidated equity ratios of The Senshu Ikeda Bank, Ltd. are expected to continue to meet the standards set by Basel III.

In this way, the Plan is in keeping with market credibility, contributes to reduced dividend costs to Preferred Shareholders and the avoidance of the dilution of common stock, and presents no problems from the viewpoint of equity ratio. In view of this, we believe that it will contribute to the maintenance and improvement of the Company's corporate value and the overall interests of all shareholders, including ordinary shareholders.

(3) Securing financial resources for the acquisition

As mentioned in (2) above, in the event of acquiring the Preferred Shares with cash as consideration, the amount of cash to be paid to Preferred Shareholders, excluding the prorated portion of the preferred dividends would be 25 billion yen (= 1,000 yen/share x 25,000,000 shares). Therefore, in order to secure financial resources (other capital surplus) of 25 billion yen in advance and to effectively carry out the Plan, the Company requests the approval of shareholders to reduce the amount of legal capital surplus as described in 2. below.

2. Outline of reduction of legal capital surplus

a. Amount of legal capital surplus to be reduced

Reduce the amount of legal capital surplus of 65,499,286,962 yen as of March 31, 2022 by 25,000,000,000 yen.

b. Amount to be transferred to other capital surplus

Transfer the entire amount of 25,000,000,000 yen of legal capital surplus to be reduced due to a. above to other capital surplus.

c. Effective date

June 28, 2022 (scheduled)

Corporate governance structure of the Group

2 The Board of Directors and the Audit & Supervisory Board

The Company has formulated the following basic policy with regard to the policy for nominating candidates for Directors and Audit & Supervisory Board Members of the Company.

<Basic policy for nominating candidates for Directors>

In accordance with its management philosophy, the Company nominates candidates for Directors based on their potential to contribute to the Company's sustainable growth and enhancement of medium- to long-term corporate value.

While the Company is required to have a certain number of Board members who are well versed in the Company's operations and its challenges, the diversity of expertise, experience and capability of the Board members must be secured in order to ensure its independence and objectivity. From this perspective, it is the Company's basic policy to nominate individuals with thorough knowledge of the Company's operations and challenges as candidates for management executives and other executive director positions, and individuals with a wide range of insights and background as candidates for Outside Directors.

<Basic policy for nominating candidates for Audit & Supervisory Board Members>

The Company appoints as candidates for Audit & Supervisory Board Members (including Outside Audit & Supervisory Board Members) persons who can be expected to ensure independence from business executors and establish an excellent corporate governance system that is compatible with the sustainable growth and social credibility of the Company.

The Company secures various opportunities for substantive discussions and examinations by the Board of Directors, and determines the number of members of the Board of Directors from the perspective of emphasizing the speed of decision making. Currently, the Board of Directors is composed of nine Directors and four Audit & Supervisory Board members.

All four independent outside directors have management experience at other companies.

Some of the Directors have experience in international departments and with overseas work, and all have excellent knowledge, experience and capabilities. In terms of gender, we have appointed female outside directors, and in terms of work experience, some persons have had experience working in the media. In addition, we have endeavored to ensure diversity in terms of age, with three persons in their fifties, three persons in their sixties, and three persons in their seventies (following the approval of Proposal No. 3).

Going forward, we will continue to reduce cross-shareholdings. The reduction of cross-shareholdings will continue on the assumption of sufficient dialogue with our business partners after comprehensively considering matters such as the risk of shareholding and the efficiency of capital.

However, the Company may hold limited shares if this contributes to the medium- to long-term enhancement of the corporate value of the Group and investees or if this is deemed necessary for the creation of regional communities and for the revitalization of regional communities.

Initiatives for diversity and inclusion

Fostering a culture of mutual understanding

Unconscious bias training	In order to foster a culture of mutual understanding, we provided training to executive personnel, including officers, to eliminate unconscious bias.

Positive action in promoting women's advancement

Action plan	<p>We have established the following numerical targets in order to promote the active participation of women, and will work to achieve them by March 31, 2027.</p> <p>Target 1: The percentage of women in managerial positions* shall be 30% or more (21.6% as of March 31, 2022)</p> <p>Target 2: The percentage of childcare leave-taking shall be 100% for both men and women (44.9% for men, 100% for women, and 71.3% for both men and women as of March 31, 2022)</p> <p>* Managerial positions refer to positions in which the person is responsible for organizational management responsibilities as the person in charge. Specifically, this refers to a person who is in a position of "deputy manager," "assistant," or above, with subordinates.</p>
Female leader training	As one of the "positive actions" to promote the active participation of women, we conduct training targeting career design and motivation.

Gender-free initiatives

Uniform renewal	<p>We renewed the uniforms in November 2021. The new uniform consists solely of a blue blazer, and was designed by Hiroko Koshino. Previously, only women were required to wear the uniform, but discussions were held at the "Uniform Review WG" comprising The Ikeda Senshu Bank, Ltd. staff, and it was decided from a gender free perspective that the design of the new uniform would be a single design to be worn by all officers and employees of branches regardless of their gender. For Head Office staff, we introduced casual business wear as part of creating an organizational culture that takes on new challenges as well as promotes communication in the workplace, and creates a more open, diverse and rewarding workplace.</p>

Support for balancing work with childcare

"Returning-to-work support meetings"	<p>We hold "returning-to-work support meetings" as an opportunity for employees who are in the same position, whether it be pre-childbirth or returning to work after childbirth, to get together. At these meetings we think about how to achieve balance for ourselves and about future career development through information provided from the Bank, the exchange of information among participants, and the experiences of senior employees. Since fiscal 2013, these meetings have been held every month with over 1,800 participants in total, making it an important network for employees from the pre-childbirth stage to the child raising stage, irrespective of gender.</p>	 	<p>Returning-to-work support meetings</p>

<p>Planning Diary PAPA'S HAND BOOK</p>	<p>To celebrate female employees who give birth, we present them with a Planning Diary, which is a support tool for when they return to work. In addition, in order to create synergy between work and family, we present men whose partners have given birth with "PAPA'S HAND BOOK," which contains a great deal of information necessary for parents following the birth of a child. We also offer messages of congratulations to new parents from the President.</p>
<p>Shared use of Company-led daycare centers</p>	<p>As the chronic shortage of daycare centers continues, we are actively promoting the shared use of Company-led daycare centers. Companies take the initiative in securing daycare centers and supporting employees' return to work after taking childcare leave.</p>

Improving work-life balance

<p>Operating the kid's banking college</p>	<p>Since fiscal 2015, we have been operating the "kid's banking college" at actual branches for the children of employees. Having parents and children think together about working while learning about the functions of banks and the professions of parents makes it possible to improve the work-life balance of the employees themselves. Parents and their children can enjoy participating in this event, where employees' children are allowed to actually wear the uniform, explore inside the bank, and interview their moms and dads about what is challenging and worthwhile in doing their work.</p>
