## **Proposal No. 2: Partial Amendments to the Articles of Incorporation**

### **1. Reasons for amendments**

- (1) The Company will increase transparency and objectivity of management by establishing three committees, Nomination, Remuneration and Audit Committees, of which the majority is comprised of Outside Directors. The Company will also transition to a Company with Nomination Committee, etc., with a view to substantially transferring authority to Representative Executive Officers, clarifying where the authorities and responsibilities of the Board of Directors and Executive Officers lie, and enabling flexible management decision-making. Consequently, the Company will establish clauses related to the Nomination Committee, Remuneration Committee and Audit Committee as well as Executive Officers, the deletion, etc., of provisions related to the Audit & Supervisory Board and Audit & Supervisory Board Members, and make necessary amendments.
- (2) We will allow for agreements (liability limitation agreements) to be concluded under Article 427, Paragraph 1 of the Companies Act with Directors who are not executive directors, etc., in addition to Outside Directors, to provide an environment that enables Directors and Executive Officers to fully fulfill their roles and secure competent human resources, under the post-transition corporate governance system. Furthermore, pursuant to the provisions of Article 426, Paragraph 1 of the Companies Act, a new provision will be established allowing Directors and Executive Officers to be exempted from liability within the scope permitted by laws and regulations in accordance with a resolution of the Board of Directors. The amendment to Article 27 and the establishment of Article 26 and Article 33 set out in the proposed amendments have been approved by each of the Audit & Supervisory Board Members.
- (3) In addition to the above, each rule of the current Articles of Incorporation will be renumbered and other necessary amendments will be made.  
These amendments to the Articles of Incorporation will take effect at the conclusion of this General Meeting of Shareholders.

\*2 During her term of office as an Outside Director of Kanadevia Corporation, the following inappropriate conduct was discovered and subsequently disclosed by the company: (i) At Hitachi Zosen Marine Engine Co., Ltd. (a consolidated subsidiary of the Company, that succeeded Kanadevia Corporation’s marine engine business as of April 1, 2023) and IMEX Co., Ltd., inappropriate conduct occurred, including falsification of measurement results related to fuel consumption, exhaust gas component concentrations, in-water brake load values, and general performance measurement data of marine engines manufactured by the companies. (ii) At Kanadevia Corporation, during the manufacture of certain bridges and other structures, unqualified individuals participated in welding operations, and repair records were falsified. (iii) During the production of special equipment bases and cast products, materials differing from those agreed upon with customers were used for special equipment bases, and changes to production equipment for emission spectrometers were made without proper customer notification. ## 1 Basic concept regarding corporate governance

The Company is a holding company with subsidiaries such as The Senshu Ikeda Bank, Ltd., which upholds the Management Principle of striving to become a financial group that “endear ourselves to the regional community” by providing services tailored to customers’ needs, while valuing “broad networks of relationships” and “an enterprising spirit.” In order to ensure sustainable growth and the medium- to long-term enhancement of corporate value, the Company is engaged in initiatives to develop its corporate governance in line with the following basic principles.

- (1) We respect the rights of our shareholders and strive to ensure their equality.
- (2) We consider the interests of stakeholders and strive to ensure appropriate cooperation.
- (3) We disclose corporate information in an appropriate manner and strive to ensure the transparency of such information.
- (4) The Board of Directors and the Audit & Supervisory Board strive to enhance the effectiveness of their supervision and audits of the execution of business in line with their fiduciary responsibilities for our shareholders.
- (5) We strive to engage in constructive dialogue with our shareholders in order to contribute to sustainable growth and the medium- to long-term enhancement of corporate value.

## 2 The Group's corporate governance system

Subject to the approval of Proposal 2 at the 16th Annual General Meeting of Shareholders, the Company will transition from a Company with Audit & Supervisory Board to a Company with Nomination Committee, etc. The Company's major subsidiary, The Senshu Ikeda Bank, will transition to a Company with Audit & Supervisory Committee.

We believe that transitioning to a Company with Nomination Committee, etc. is the most effective system for realizing the strengthening of governance and the enhancement of corporate value under the Basic Concept regarding Corporate Governance described in 1 above. The objectives of the transition include: (1) greater transparency of management: enhance the transparency and objectivity of management by establishing three committees, Nomination Committee, Remuneration Committee, and Audit Committee, the majority of whose members will be Outside Directors; and (2) swifter decision-making: realize flexible decision-making on management through a substantial delegation of authority to the Representative Corporate Officers and the clarification of the authority and responsibilities of the Board of Directors and the Corporate Officers.

The Group plans to introduce the corporate governance system as follows:

**Directors and Board of Directors**

The main role of the Board of Directors will be to make decisions on business execution that are matters exclusive to the Board of Directors by law, including basic management policies, and to supervise the execution of duties by Directors and Corporate Officers. To fulfill its roles, the Board of Directors will appropriately establish an internal control system and supervise its operation. For the purpose of swift decision-making and strengthening of the supervision of Corporate Officers, etc., the Board of Directors will confine matters for Board resolution to matters that are exclusive to the Board of Directors by law and, in principle, delegate decisions on the execution of other business to the Representative Corporate Officer and President.

**Nomination Committee**

The Nomination Committee will determine the content of proposals for the appointment and dismissal of Directors of the Company for submission to the General Meeting of Shareholders and consult on the appointment and dismissal of Directors of the Company's major subsidiary, The Senshu Ikeda Bank, and other Group companies.

To ensure transparency and objectivity in the Group's personnel affairs, this committee will be chaired by an Outside Director and comprise a majority of Outside Directors.

Remuneration Committee

The Remuneration Committee will determine the remuneration of individual Directors and Corporate Officers of the Company and consult on the remuneration of individual directors of the Group companies. It will also make decisions on the Company’s basic policies on officer remuneration and the remuneration system, as well as consulting on the basic policies on officer remuneration and the officers’ remuneration systems of the Group companies.

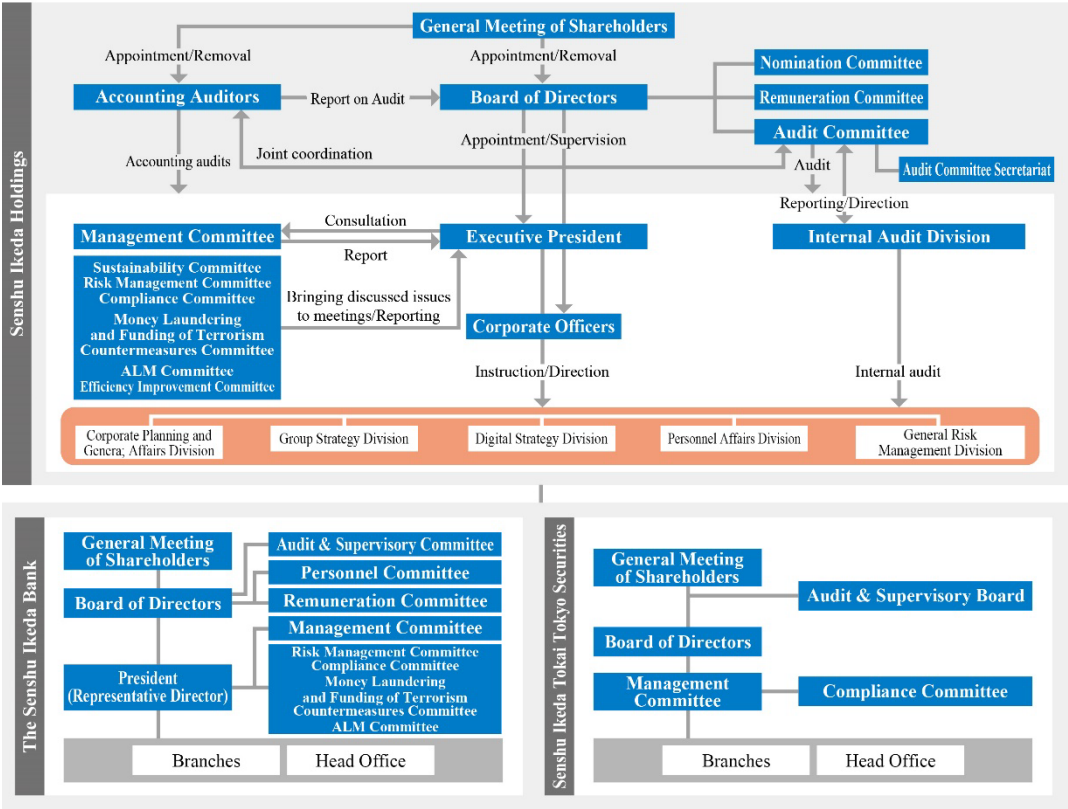

To ensure transparency and objectivity in officers’ remuneration, this committee will be chaired by an Outside Director and comprise a majority of Outside Directors.

Audit Committee

The Audit Committee will conduct audits of the execution of duties by the Directors and Corporate Officers, monitor and verify the construction and operation of the Company’s internal control system, monitor and verify the execution of duties by Corporate Officers related to the management of subsidiaries, and prepare audit reports. It will also determine the details of proposals for the appointment, dismissal and non-confidence of the Accounting Auditors to be submitted to the General Meeting of Shareholders.

As the Audit Committee requires the gathering of information by internal Directors who are familiar with financial operations, the sharing of information in the Committee, and cooperation with the internal audit department, it will appoint an internal non-executive director as a full-time member of the Audit Committee. The Committee will be chaired by an Outside Director and a majority of its members will be Outside Directors.

### 4 Evaluation of Effectiveness of Board of Directors

With the objective of enhancing the functions of the Board of Directors, the Company conducts an analysis and evaluation of its effectiveness on an annual basis. Since fiscal 2020, upon ensuring a mechanism in which external organizations are used to highlight issues, the Directors and Audit & Supervisory Board Members are asked to complete a questionnaire survey consisting of five sections, "Composition and operation of the Board of Directors," "Management and business strategies," "Corporate ethics and risk management," "Evaluation and remuneration of executive management team," and "Engagement with shareholders, etc." for the purposes of self-evaluation.

[Key themes in previous fiscal year and details of initiatives]

In fiscal 2024, the following two matters were positioned as key themes, and we strived to improve the effectiveness of the Board of Directors.

(1) Consideration of roles of the Board of Directors

With particular emphasis on "appropriate demarcation between supervision and execution" and "delegation of authority," the Board of Directors had discussions on changes to the organization design on seven occasions. At the Board of Directors meeting held in March, a resolution was adopted to transition Senshu Ikeda Holdings to a company with Nomination Committee, etc. and Senshu Ikeda Bank to a company with Audit and Supervisory Committee, subject to the approval of the General Meetings of Shareholders.

(2) Deliberation and supervision based on the roles of the Board of Directors

In particular, the Board discussed "DX promotion and human resources strategies," "strengthening of group governance," and "responses to sustainability issues," and monitored progress in these areas.

- Regarding DX promotion, we established the Digital Strategy Division to enhance the effectiveness of the Group's responses to environmental changes in the area of digital technologies. The Board discussed DX strategy, IT strategy, and IT governance at digital strategy meetings held every three months and set a KPI of 360 digital personnel by the end of fiscal 2025.

- Regarding human resources strategy, the Board reflected on the FY2023 human resource development plan and discussed the human resource development plan for FY2024. It also held discussions on themes such as targets for male employees taking childcare leave, the status of promotion of women to managerial positions and titled positions, measures to enhance communications between management and employees, and labor management.

- Regarding strengthening of group governance, the Board established rules and guidelines for shifting to a position based on the concept of "three lines of defense" as a Group.

- Regarding responses to sustainability-related issues, the Board discussed the introduction of a system for the calculation of GHG emissions and responses to the TNFD recommendations.

In addition to initiatives on key themes, other improvements were made to improve the running of Board of Directors meetings, such as including the total number of pages in the materials provided for the meetings and descriptions of specific matters for resolution. Efforts were also made to enhance information sharing by holding meetings to exchange opinions with Outside Directors and Outside Auditors.

[Results of evaluation in the year under review]  
The Board of Directors held deliberations based on the results of the questionnaire survey and details of initiatives in April and May of 2025. Positive evaluations accounted for the majority of the survey responses and, given that specific initiatives are being implemented on the key themes established in the previous fiscal year, the overall assessment is that the effectiveness of the Board of Directors has been ensured.

Summary of Questionnaire on the Effectiveness of the Board of Directors

Evaluation	Scoring on 5-point scale; open-ended questions

**Overall score: Average 4.4 points**  
**(FY2020: 4.5 points; FY2021: 4.4 points; FY2022: 4.2 points, FY2023: 4.4 points)**  
**Percentage of evaluations: Positive (Score of 5 or 4): 92.7%; Negative (Score of 2 or 1): 0.6%**

[Key themes for further improvement of effectiveness]  
In the open-ended questions, there were some opinions regarding further improvement of effectiveness. Based on discussions at the Board of Directors, we will work on the following two items as key themes in fiscal 2025.

(1) Strengthening of supervisory function of the Board of Directors  
As stated above, our efforts have been particularly focused on “appropriate demarcation between supervision and execution” and “delegation of authority.” With the new organization design, on the assumption of its approval of the General Meeting of Shareholders, we will be able to make even further progress in these areas. Specifically, as there will be a further expansion of the scope of delegation of authority from the Board of Directors to the executives, we will further advance the delegation of authority to executives, and by clarifying the distinctions between the roles of the supervisors and those of the executives, we will strengthen the supervisory function of the Board of Directors.

(2) Enhancement of discussions on key domains  
We will consider what details to present regarding DX promotion, allocation of management resources, sustainability, and officer remuneration, and how to present the arguments, in our efforts to enhance discussions.

In addition, to make further improvements on the operation front, we will work to further refine the Board of Directors’ materials and enhance opportunities to provide information to outside officers.

Similar analysis and evaluation have been conducted at our major subsidiary, The Senshu Ikeda Bank, and we have confirmed that the effectiveness of the Bank’s Board of Directors has been ensured.

## Initiatives regarding the Company's Corporate Governance

### 5 Concept regarding the Company's cross-shareholdings

#### (1) Basic policy regarding cross-shareholdings

Since the bank merger in 2010, the Company has reduced cross-shareholdings with the aim of reducing the risk of shareholding.

Going forward, we will continue to reduce cross-shareholdings. We will pursue these reductions on the assumption of sufficient dialogue with our business partners, after comprehensively considering matters such as the risk of shareholding and the efficiency of capital.

However, the Company may hold limited shares if this contributes to the medium- to long-term enhancement of the corporate value of the Group and investees or if this is deemed necessary for the creation of regional communities and for the revitalization of regional communities.

#### (2) Policy for reduction of cross-shareholdings

The Company set a target for reduction of cross-shareholdings with the aim of reducing the ratio of the cross-shareholdings (including shares deemed to be held) to less than 20% of consolidated net assets by the end of fiscal 2023 during the Fifth Medium-Term Business Plan. During the period of the Medium-Term Business Plan, the Company divested cross-shareholdings with a market value of 1.5 billion yen. This resulted in the ratio falling to 18.8% by the end of fiscal 2023, hence the target was achieved. We will continue to divest and reduce cross shareholdings during the period of the Fifth Medium-Term Business Plan Plus (FY2024-FY2025) with the aim of maintaining the ratio of less than 20%. In fiscal 2024, we divested nine securities with a market value of 2.5 billion yen, bringing the ratio of cross-shareholdings down to 15.5% at the end of that fiscal year.

#### (3) Holding status of cross-shareholdings

##### Balance of cross-shareholdings (including shares deemed to be held) and the Company's consolidated net asset ratio

## 3. Performance-linked remuneration

The performance indicators for the 16th term are as follows, and the amount of performance-linked remuneration fluctuates according to the achievement rate. If the achievement rate falls short of the range shown below, the lower limit of the predetermined performance-linked remuneration amount shall be paid, and if the achievement rate exceeds the range shown below, the upper limit shall be paid. The target values for each index are determined by the Board of Directors.

Item	Performance index
Profitability indicator	Bank non-consolidated core business net income (excluding gains and losses on investment trust cancelations)
Future potential indicator	Number of solutions
Soundness indicator	Capital adequacy ratio (holding company consolidated)

However, performance-linked remuneration shall not be paid if the following performance indicators set by the Board of Directors are not achieved.

Bank non-consolidated core business net income (excluding gains and losses on investment trust cancelations)

For Directors other than the President and Chairman, a certain ratio of performance-linked remuneration shall be determined by qualitative evaluation according to the performance status of each individual. The Board of Directors shall establish evaluation criteria for the performance status and delegate the evaluation of each individual based on these criteria to the President.

## 4. Non-monetary remuneration

The type of shares subject to stock acquisition rights to be granted as stock options shall be common stock of the Company, and the number of shares subject to each stock acquisition right shall be 100 shares.

The amount equivalent to the payment amount for the stock acquisition rights shall be determined based on position, responsibilities, and share price, etc. The determined amount is divided by the fair price of stock acquisition rights calculated by a fair calculation method, such as the Black-Scholes model, to obtain the number of shares, and the number of shares divided by 100 shall be the number of units of stock acquisition rights.

A claw-back clause for stock options shall be established, whereby in the event that there is deemed to have been illegal or improper execution of duties, acts that violate the duty of due care or duty of loyalty of a prudent manager, or acts equivalent thereto, the Company may acquire all the stock acquisition rights held by the holder of said stock acquisition rights (limited to stock acquisition rights granted as non-monetary remuneration of the Bank) without consideration.
