**Notice Concerning the Issuance of Stock Options (Stock Acquisition Rights)**

Senshu Ikeda Holdings, Inc. (Head Office: Osaka-city, Representative Director, President and CEO: Hirohito Sakaguchi, the “Subsidiary”). The details are described below.

1. Reason for the issuance of stock acquisition rights as stock options

Stock acquisition rights as stock-compensation-type stock options will be issued to the Executive Officers of the Company and the Directors and Executive Officers of the Subsidiary, to further strengthen the link between the performance and the stock prices of the Company and the Subsidiary. Also, by having the Directors and other officers of the Company and the Subsidiary share not only the benefits of rising stock prices but also the risks of falling stock prices with the shareholders, the Company aims to further incentivize them and raise morale to contribute to the medium to long term improvement of performance and the enhancement of corporate value.

- (4) The class and number of shares under the stock acquisition rights

The class of shares under the stock acquisition rights shall be the common stock of the Company, and the number of shares for each stock acquisition right (the “Number of Shares Granted”) shall be 100.

However, if after the date of allotment of the stock acquisition rights (the “Allotment Date”), as set forth in paragraph (14) below, the Company conducts a stock split (including a gratis allotment of common stock of the Company, hereinafter the same shall apply) or a reverse stock split of its common stock, the Number of Shares Granted shall be adjusted according to the following formula. However, such adjustment shall be made to the number of shares under the stock acquisition rights that have not yet been exercised at that point, and fractions of less than one share resulting from the above adjustment shall be omitted.

Adjusted Number of Shares Granted = Number of Shares Granted before adjustment x Ratio of the stock split or stock consolidation

The Adjusted Number of Shares Granted shall be applied, in the case of a stock split, on and after the day following the record date of the relevant stock split (or its effective date if no record date is specified) or, in the case of a consolidation of shares, on and after its effective date. However, in the event that a stock split is conducted on the condition that a proposal to increase capital stock or capital reserves by reducing the amount of surpluses is approved at the General Meeting of Shareholders and that the record date for such stock split is prior to the date of closing of said General Meeting of Shareholders, the Adjusted Number of Shares Granted shall be applied retrospectively to the day following said record date on and after the day following the date of closing of said General Meeting of Shareholders.

The amount to be paid in for each stock acquisition right shall be the option price per share calculated based on the following formula and the basic numerical values of 2) through 7) below

multiplied by the Number of Shares Granted (with any amount less than one (1) yen arising from such calculation to be rounded up).

$$C = Se^{-\lambda t} N(d_1) - e^{-rt} XN(d_2)$$

In this formula,

$$d_1 = \frac{\ln\left(\frac{S}{X}\right) + \left(r - \lambda + \frac{\sigma^2}{2}\right)t}{\sigma\sqrt{t}}, d_2 = d_1 - \sigma\sqrt{t}$$

- 1) Option price per share (C)

As for the portion of the Company’s Subsidiary, the Company shall assume the obligation of the Subsidiary to pay such monetary remuneration, and the amount to be paid in for the stock acquisition right shall, pursuant to the provisions of Article 246, Paragraph 2 of the Companies Act, in lieu of monetary payment, be offset by the above claims to the Company to monetary remuneration held by the Eligible Persons.
